## The ast Nail

Paul H. Nystrom, Professor of Marketing, Columbia University, in contemplating the future of retail merchandising, says: "Many people are wondering whether the postwar period may bring any startling changes in the distribution of goods. So far as I can see, there are not likely to be any revolutions either in the channels or methods of distribution."

"The wholesale-independent system, which has made extensive and remarkable gains during recent years, is likely to hold its own and should continue to parallel the growth of future distribution of goods. In spite of the rise of chains, mail-order houses and department stores during the past generation, the independent retail store business is represented today by more retail stores and enjoys a greater volume of business than it ever had before."

This fact should be the last nail in the coffin of the bogey that chain stores put independents out of business.

## CINEMATIC CHATTER

By Malcolm Miller

They are offering a varied program at the Everglades Theatre this coming week starting with the Sunday-Monday offering which is "The Man From Frisco" and which stars Michael O'Shea and Anne Shirley. In the afternoon, the program features Gene Lockhart, Dan Duray, Ray Walker, Michael Dennis and Tommy Bond. This is a sci-fi story which has to do with strong men, living dangerous lives and living every minute.

Double feature is the order of the day for Tuesday-Wednesday offering with Basil Rathbone and Nigel Bruce starring in the first Sherlockian offering, which happens to bear an intriguing name... "Spider Woman," suggesting mystery and all that sort of thing.

Second picture up is "Spotlight Scandals" which stars Bill

he is doing a swell job with it. See you at the movies—Mal.

## T. E. L. CLASS HAS DINNER

A covered dish dinner was enjoyed by members of the T. E. L. Sunday School Class of the First Baptist church at the home of Mrs. J. O. Darden. Mrs. Paul Davidson served as colporteur. Following dinner a short business session was presided over by Mrs. C. P. Pennington in absence of the President, Mrs. H. E. Jones. A report was made by Mrs. Allen Greer that Christmas baskets had been prepared and presented to needy families during the holidays. It was unanimously voted to send a potted plant to Mrs. Thomas, Mrs. H. E. Jones' mother, who is ill at her home in Groveland. Mrs. H. O. Earwood gave a chapter entitled "Flight to Egypt," of the book "Christ in Fine Arts," which the class is studying. The next meeting will be at the home of Mrs. Earwood and Mrs. Otis Hayes. Mrs. I. E. Edwards

low and Mrs. W. J. Richards were appointed on the entertainment committee. Others attending were Mrs. Vernon Jones, Mrs. Louis Weiman, Mrs. G. C. Howell, Mrs. I. E. Price, Mrs. Norman Hay, Mrs. J. W. ## A NEW RECORD FOR LONG DISTANCE

MORE CALLS IN 1944 THAN EVER BEFORE

There were more Long Distance calls in 1944 than in 1943—more than any other year in history.

1945 has started off with a rush, and some circuits are still crowded.

When that's the case, Long Distance will ask your help by saying: "Please limit your call to 5 minutes."

## Cotton Dresses with New Style Value

We have received since Christmas some of the finest cotton dresses we ever saw. In fact, they are so superior to anything offered before that we have remodelled the east side of the second floor to create a special Cabana Cotton Dress Shop.

These dresses are smart in design and so beautifully tailored we feel they belong on the second floor with our better dresses.

We honestly believe the smart women of the Glades, the Palm Beaches, Delray Beach and from Stuart to Vero Beach are going to enjoy these very unusual dresses.

We're glad to announce that the express has brought some of the most beautiful pastel sport shirts of the year for men in all wool at \$9.95 and wool and rayon mixture at \$6.95.

## SOUTH BAY HAS BOND ELECTION

An election was held at the South Bay Town Hall on Friday to vote a \$20,000 bond issue for the purpose of paving several of the streets. It is understood that two thirds of the cost of paving will be paid by property owners adjoining property to the proposed paving, the remaining third by taxpayers on property in the town limits.  
Eighty two freeholders were qualified to vote, 58 of whom exercised their right of ballot, 43 voting in favor of the bond issue and 10 against, thus carrying the bond issue by a nice margin.

TOMORROW...

TODAY!

Years of Leadership

● Tomorrow—magic tomorrow—when our tremendous energy is released to build such a world as few men have dared to dream.

First on America's "must" list is housing—and South Floridians will set the pace in home-building. They will build wisely—in the spirit of the new world a-coming... a world in which today's luxuries will be tomorrow's necessities.

Complete air-conditioning will be a dominant factor in the home of tomorrow... as much of a necessity as a kitchen range. As pioneers in air-conditioning in this area, we have seen it coming for a long, long time. Even though for the last three years air-conditioning equipment has gone to the war effort, we have maintained our staff of engineers and consultants for your convenience. They will gladly work with your architect or consulting engineer now toward incorporating air-conditioning and unit-heating in the design of your home of tomorrow.

Already, many Floridians have given their orders to us for Carrier home air-conditioning units, delivery as soon as possible after victory. Deposits are being taken now, and orders will be filled D. A. V., in the order in which they are received.

Make way for tomorrow... today! Our telephone number is 2-7423.

specialized research institution qualified to cope not only with the complete problems of war-time regulations but to plan intelligently for postwar conditions.

LaMonte Graw, Committee manager with office in Orlando, so reported to the Committee directors on their accomplishments last week at the conclusion of the first calendar year of unified effort and pointed the way toward further advancement during the coming 12 months.

"With Florida Vegetable Committee membership now representing the majority of tonnage of all principal commodities and recognized in Washington and elsewhere as the spokesman for the Florida vegetable industry

there is ample evidence of the wisdom of concerted effort," Graw said.

"For the grower, ceilings have been held off on some commodities, other price ceilings are higher than they would have been, administrative orders have been made easier to live under and adjustments of price ceilings have been secured after disasters.

"The Committee was the sponsor of the OPA law under which Congress provided for adjustments—an accomplishment made possible by the fact that the industry had been represented by the representation of the entire industry on the subject matter.

"More containers were made available as well as motor cars to ship in, together with more supplies and equipment.

"Through the Committee's constant watchfulness, growers, shippers and processors have been kept well informed as to price ceilings conditions and other factors. Only through presentation of the needs of the industry as a whole, could last season's success in obtaining more domestic and foreign labor and labor camps have been made possible.

"For the shipper, the Committee was able to secure from the War Labor Board a comprehensive program whereby the packing house wage scale was adjusted to rates under which they could work."

Graw outlined plans to cooperate with the research groups of the University of Florida in setting up a scientific basis for cost formulas to be used in discussions with the Office of Price Administration in the fixing of basic price ceilings, and to provide a starting point for postwar plans to lower cost of production and to market a better quality of product more cheaply and quickly.

"In connection with postwar planning," Graw continued, "a legislative program is being prepared to present to the 1945 State Legislature for consideration. We are asking the state to add to its facilities and personnel for studying problems relating to crop adaptation and improvement, growing and fertilizing methods, uses of surplus and waste products, and marketing."

The directors are: Celery, Loring, Rand, Sarasota, R. A. Cobb, Sanford; Beans, R. L. (Sam) Chastain, Canal Point and C. B. Hogan, Pompano; Cabbage, Andrew Duda, Jr., Ovidia, and R. Y. Creel, Belle Glade; Melons, Douglas Igou, Eustis and B. G. Anderson, Umatilla; Peppers, Eggplant and Cukes, Bryant E. Pearce, Ft. Myers and Carroll Fussell, Bushnell; Potatoes, H. L. Haney, Belle Glade; Lettuce, Vegetables, Mrs. Ruth Wedgworth, Belle Glade and N. D. McLean, Palmetto; Miscellaneous Vegetables, Luther Chandler, Goulds and F. ### Rural Bond Sales Effective Step In Postwar Planning

WASHINGTON, D. C.—Secretary of Agriculture Claude R. Wickard called on American farmers to invest all "extra" dollars in War Bonds during the Sixth War Loan beginning November 20 as an "effective step in postwar planning" for rural America.

Directing his appeal "To the Farm People of America," Secretary Wickard said, "the farm people of this country have an outstanding record."

"It still takes a lot of money to finance the war, even though we are winning. The single task of supplying the Pacific theater is a tremendous undertaking. Add to that the equipment which was needed on the invasion coast of France, the supplies that were needed now to knock down the walls of Hitler's Germany, and the total is staggering. So our job here at home is by no means over. Just as the war on the fighting front isn't over, our homefront responsibility is twofold: One is to stick to our job and do it well until total victory won; the other is to buy War Bonds."

The farm people of this country have an outstanding record. They have achieved a production miracle in the face of extreme adversity. Their production record is good, so, as indicated by record that farm families have purchased more than one and a quarter War Bonds since the beginning of 1943. This figures out at about 19 percent of the total.

This Sixth War Loan campaign is the biggest yet for agriculture but never before has agriculture had so many dollars to invest in War Bonds. The record production of farmers is a most favorable commodity prices, has pushed the income of farmers to an all-time level. The investment of those extra, additional dollars in War Bonds would be the most effective step in postwar planning rural America could take.

Make your share in the future—share your stake in the war."

## BELLE GLADE FIRE DEPARTMENT

Organized February '31 following disastrous fire under impetus of Lawrence Will, Councilman, with purchase of pumper, nothing down and an agreement to be caught at extended intervals.

Lawrence, as Chief, has recruited trained built up and directed a VOLUNTEER department second to none with a record of small losses and reduced insurance rates.

The VOLUNTEER department has SAVED AVENUE A TWICE, block on MAIN STREET once, and THE QUARTERS too many times to mention, as well as numerous dwellings.

Fifty-four runs were made during 1944.

Outstanding work, beyond and above expectancy, saved thousands of dollars last Sunday, and more than half dozen white homes.
